

## IT Business Analyst (25368)

### Description

Our firm needs an IT Business Analyst to join our growing team. We are looking for a professional with experience in both information technology and business administration. The successful applicant will serve as the liaison between the executive and IT departments of our client's company, leveraging the data the IT team extrapolates while also overseeing the selection and implementation of software programs and hardware resources.

### Responsibilities

- Using data modelling techniques to identify ways in which an organisation can operate more effectively.
- Communicate with senior people in organisations to find out what they hope to achieve
- Formulate ways for businesses to improve, based on previous research
- Persuade internal and external stakeholders of the benefits of new technology or strategies
- Oversee the implementation of new technology and systems
- Run workshops and training sessions
- Exploring how the organisation is currently operating via research, which could include interviewing employees and collecting quantitative data
- Explore different solutions, their risks, benefits and impacts
- Proposing solutions to an organisation's leaders, and keeping them updated with progress
- Creating documents to outline the proposed changes and the steps involved.

### Qualifications

Bachelor's Degree in Software Development, Computer Engineering, Project Management or related field

### Job Benefits

- Increment would be at least a minimum of 15% every six months.
- Relocation charges will be provided to you during your project
- Medicinal, Dental and Vision benefits following 60 days of business.
- Medical coverage qualified following 60 days of business.
- Present moment and long haul handicap following 60 days of work.
- 401k retirement benefits plan qualified following half a year of work.
- Pre job Training with Experienced Trainers.
- Assignments & Case Studies provided during training.
- Mock sessions before interviews
- Multiple interview rounds with different clients.
- Visa Sponsorship
- Training completing certificates
