

Manual Tester

Description

Talenthed Inc, is looking for temporary, temp-to-hire, or direct hire jobs, working with multiple client across U.S.

Responsibilities

- Creating a test plan
- Using the plan to assess functionality, performance, reliability, stability and compatibility with other systems
- Using the plan to hunt down and fix software bugs
- Looking for ways to prevent bugs from occurring in the first place
- guarding against incorrect language usage, truncated text and incorrect formatting
- Ensuring the product is culturally compatible with the target market
- Some localization analysts are responsible for translation work
- Rebuilding the corrected software application.

Qualifications

- Knowledge of a broad range of software applications and of hardware and networks
- Strong programming knowledge
- A good understanding of business
- Ability to think in the abstract and see how small details fit into the bigger picture
- A creative mindset – and the ability to approach a problem creatively
- Good communications skills, both written and verbal
- Strong IT skills
- A meticulous approach to work
- Ability to use logic and reasoning to identify the strengths and weaknesses of IT systems.
